

TRANSFER OF COPYRIGHT

Paper Authors' Transfer of Copyright Agreement and Agreement to Editorial Changes

Submission of your paper for publication in the Journal of Water Management Modeling constitutes:

- the transfer of the copyright from the Authors to CHI, and
- the understanding that the paper has not been published previously, is not being considered for publication elsewhere, and is not a violation of copyright or prior ownership. If parts of the material (i.e. text, figures, or tables) have been published elsewhere, permission for their reproduction must be obtained from the copyright owners and full acknowledgement made in the manuscript.

The manuscript will be submitted free of copyright charges. Only CHI will have the right to publish the contribution throughout the world in journal, book, or other form. Upon application from the author, however, CHI may furnish permission to the author to republish, distribute or communicate any or all of the paper in a professional journal, or conference proceedings.

To ensure consistency in intellectual standards, style, vocabulary, phraseology and format throughout the Journal as a whole, the editorial board reserves the right to make changes considered necessary in the submitted paper.

Paper Title: _____

Authors: _____

By signing I agree to above conditions.
